

Sales Performance Dashboard Report

Executive Summary

The dashboard provides an overview of sales performance, profitability, order fulfillment, and category-level revenue. The company generated SAR 315.07M in total revenue with a gross profit margin of 43%, indicating strong financial performance and effective cost management.

Key Performance Indicators

- Total Revenue: SAR 315.07M
- Total Cost: SAR 179.20M
- Gross Profit Margin: 43%
- Total Discounts Given: SAR 9.04M
- Total Orders: 30K
- Total Units Sold: 129.51K
- Total Items in Orders: 80K
- Return Rate: 5.03%

Revenue by Category

Fashion generated the highest revenue at SAR 47M, followed by Electronics (SAR 45M) and Beauty & Health (SAR 43M). Sports & Outdoors recorded the lowest revenue at SAR 30M. The results indicate that Fashion and Electronics are the primary revenue drivers.

Revenue Trend by Year

Revenue fluctuated over the years, reaching its peak in 2023 with SAR 47.8M. Performance declined during 2024 and 2025, while 2026 recorded the lowest revenue of SAR 19.4M, highlighting the need for further investigation into business performance.

Order Status Analysis

Delivered orders account for 59.82% of all orders, demonstrating a generally effective fulfillment process. However, cancelled orders represent 7.31% and returned orders 5.03%, suggesting opportunities for operational improvements.

Business Recommendations

1. Increase investment in high-performing categories such as Fashion, Electronics, and Beauty & Health.
2. Reduce cancellations and returns through improved product information and service quality.
3. Develop targeted marketing campaigns for lower-performing categories.
4. Analyze factors contributing to the revenue decline after 2023 and implement corrective actions.

Conclusion

The company achieved strong revenue and profitability, supported by a diversified product portfolio. Fashion, Electronics, and Beauty & Health remain the strongest contributors to revenue. Future efforts should focus on improving operational efficiency, reducing cancellations and returns, and restoring revenue growth in recent years.
